

英語VODトランスクリプト&字幕付与サービスについて

国際放送NHKワールド JAPANのウェブサイトでは、英語のオンデマンドサービスで公開するコンテンツに、英語のトランスクリプトと字幕を付与する取り組みを始めました。

コンテンツの動画を再生しながら、聞き逃してしまったコメントなどをテキストで確認できます。翻訳機能のついたブラウザを活用すれば、テキストをお好きな言語に変換していただくことも可能です。

英語を学んでいる方には語学学習の機会拡大に、英語以外の言語を母国語とする方々には各種情報の入手にご利用下さい。

【対象番組】

「Medical Frontiers」や「DEEPER LOOK From NY」など、およそ 52 番組
(※国内番組の英語化や大相撲、歌番組等を除く)

【視聴方法】

Tackling Dementia After Onset

Medical Frontiers 20m 10s
Broadcast on July 26, 2021 / Available until July 28, 2022

Add to My List

#Science & Nature #Transcript #Medical #Jingno

A Japanese brain scientist managed to improve the cognitive and physical functions of dementia patients just by having them take part in 30 minute group drum sessions 3 times a week for 3 months. We look at why the activity had such an effect. We also focus on the difficulty of delivering drugs to the brain, which is a major hurdle to treating dementia, and how a researcher aims to overcome this using nanotechnology.

Transcript

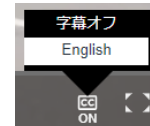

- 0m 01s Join us as we explore Medical Frontiers!
- 0m 08s According to the World Health Organization, there are 50 million dementia patients worldwide, and this figure is expected to triple by 2050.
- 0m 20s A Japanese study has shown that a lack of social contact during the coronavirus pandemic, has caused many dementia patients condition to worsen.
